Subject Index

A

ACETYLCHOLINE RECEPTOR
  rich membranes of *Torpedo* electric organ, 627
ACETYLENIC BONDS
  ultrasound assisted oxidative cleavage of with potassium permanganate, 1299
ACYL CoA BINDING PROTEIN
  multiplicity and function of, 895
ACYL-CoA:CHOLESTEROL ACYLTRANSFERASE ASSAY
  improved by cyclodextrin, 323
ADENOSINE TRIPHOSPHATE (ATP)
  binding site of human 5-lipoxygenase, 367
ADIPOSE TISSUE
  ^{13}C magnetic resonance spectroscopic study of *in vivo*, 145
  development in the chick embryo, 313
  diacylglycerol acyltransferase inactivated by protein tyrosine kinase in, 277
ALGAE
  biogenesis of marine oxylipins in, 1215
  biosynthesis of eicosapentaenoic acid in, 1277
ALKYLGLYCEROLS
  reaction of with trimethylsulfonium hydroxide, 349
ALKYLPEROXYL RADICAL
  generated from cyanidin 3-*O*-(-D glucoside, 1259
ALLICIN
  in inhibition of cholesterol biosynthesis, 1269
ALPHA-LINOLENIC ACID
  effect on
    DHA levels in rat brain and retina, 1289
    the fatty acid profile of cardiolipin of heart and brain, 611
  ratio with linoleic acid in term infants, 107
ALPHA-TOCOPHEROL
  effect on decomposition of methyl linoleate hydroperoxides, 357
  hydroperoxides formed by lipoxygenase correlate with levels of, 703
ALPINE CURRANT
  silver ion HPLC/APCI-MS of triacylglycerols of, 1311
AMMONIA NEGATIVE ION CHEMICAL IONIZATION
  in optimization of mass spectrometric analysis of triacylglycerols, 33
AMPHIBIAN OOCYTES
  lipidic characterization of full-grown, 651
ANIMAL STUDIES
  compared with results of human studies of n-3 fatty acids and lipoproteins, 243
ANNEXIN I
  GT1b-enhanced phosphorylation of, 983
ANTHOCYANIN
  oxidation products of, 1259
15:0 ANTEISO FATTY ACIDS
  polar lipids of *Listeria monocytogenes*, 635
17:0 ANTEISO FATTY ACIDS
  polar lipids of *Listeria monocytogenes*, 635
9-ANTHRYLDIAZOMETHANE (ADAM)
  interference of free fatty acids with the mouse bioassay, 641
ANTIOXIDANT(S)
  action of Fe(II) in liposomes, 1029
  the chemistry and properties of tocopherols and tocotrienols, 671
APCI–MS
  See ATMOSPHERIC PRESSURE CHEMICAL IONIZATION–MASS SPECTROMETRY
APOLIPOPROTEIN(S)
  in Melanesians, 153
APOLIPOPROTEIN A-II
  structure and functional effects of monomeric and dimeric, 1107
APOLIPOPROTEIN B
  mRNA editing in copper-deficient rats, 433
AQUATIC ORGANISMS
  estimation of polyunsaturated fatty acid content in lipids of, 427
ARACHIDONIC ACID
  bisallylic hydroxylations and epoxidation of by cytochrome P450, 1003
  effect of high DHA–low EPA fish oil in infant formula on, 617
  effect on *in vitro* eicosanoid synthesis, 729
  in investigating specificity of lipoxygenases from rice, 803
  in phospholipids of mucosa and the stomach wall of rats, 1323
  in plasma lipids of obese children, 305
  mediating the systemic actions of growth hormone in transgenic mice, 139
  mobilization by peritoneal macrophages, 661
  postnatal changes in cortical gray matter of rat cerebrum, 437
  supplementation and retinal fatty acids of piglets, 53
  supply and metabolism in full-term human infants, 79
ARRHYTHMIA
  effects of polyunsaturated fatty acids on, 977
ARTIFICIAL REARING
  and n-3 deficiency in rats, 71
ASCIDIAN
  ether phospholipids in, 9
ASSAY
  of phosphatidate phosphohydrolase activity, 1097
ATMOSPHERIC PRESSURE CHEMICAL IONIZATION–MASS SPECTROMETRY (APCI–MS)
  analysis of triacylglycerols of seed oils, 1311
  quantitative analysis of triglycerides using, 919
AXINELLIDA
  unsaturated long-chain fatty acids from, 193

B

BACTERIA
  trans unsaturated fatty acids in, 129
BETA-CAROTENE
  against lipid peroxidation in rat liver, 47
BETA-OXIDATION
  of stearic acid, 159
BILE
  lipids, dietary effects in humans on red cell membrane lipids and, 295
  metabolism and effect of β-lactam antibiotics on, 601
BILE FLOW
  dietary fat effect on, 949
  effect of methyltestosterone on, 879
BILIARY CHOLESTEROL CARRIERS
  effect of castration and hormonal supplementation on, 945
BILIARY LIPID SECRETION
  hormonal effects on, 879
BINDING SITE
  of ATP to human 5-lipoxygenase, 367
BIOSYNTHESIS
  of eicosapentaenoic acid in microalga, 1277
  of oxylipins in marine organisms, 1215
BLACK CURRANT
  silver ion HPLC/APCI–MS of triacylglycerols of, 1311
BLOOD LIPIDS
  altered by the ratio of n-6 to n-3 fatty acids in the rat diet, 737

BONEFISH
lipid composition in developing, 513
BORAGE
silver ion HPLC–APCI–MS of triacylglycerols of, 1311
BRAIN
fatty acid composition
during development, 859
of gliomas in humans, 1283
polyunsaturated fatty acid accretion in rat, 1289
structural order of membranes during thermal evolution in, 1045
BRAIN DEVELOPMENT
fatty acid composition during, 859
BRAIN GROWTH SPURT
effect of increasing dietary linoleic acid on, 1289
BREAST MILK
dietary DHA essential in term infants?, 115
BUTTER
intestinal lymph absorption of in rats, 405
BUTTERFAT
and biliary lipid secretion in the hamster, 949

C

^{13}C MAGNETIC RESONANCE SPECTROSCOPY (^{13}C MRS)
study of adipose tissue *in vivo*, 145
CAENORHABDITIS ELEGANS
effects of temperature on fatty acid composition of, 1173
CALBINDIN-D9k mRNA
effect of medium-chain triglycerides on in the intestine, 547
CARNITINE ACETYLTRANSFERASE
effect of HMG-CoA reductase inhibitor on, 867
CAROTENOID ANALYSES
a rapid method for separation of lipoproteins for, 421
CASTOR OIL
characterization of oleoyl-12-hydroxylase in, 571
CATALASE ACTIVITY
dietary docosahexaenoic acid effect on in mice, 1157
CEFOTAXIME
effect on intestinal microflora and bile acid metabolism in rats, 601
CELLULAR SLIME MOLD
identification of a novel all-*cis*-5,9,12-heptadecatrienoic acid in, 445
CERAMIDES
simple method for synthesis of [^{14}C], 995
CHEMISTRY
and antioxidant properties of tocopherols and tocotrienols, 671
CHICK EMBRYO
adipose tissue development in, 313
CHOLESTA-3,5-DIEN-7-ONE
in opacified fish cornea, 1039
CHOLESTEROL
comparison of results from human and animal studies, 243
dietary effects on bile and red cell membrane lipids in humans, 295
effect of β-lactam antibiotics on in rats, 601
enzymic oxidation of in a variety of tissues, 453
fed rats and the hypocholesterolemic effects of six vegetable oils, 415
inhibitory effects of garlic-derived compounds on biosynthesis of, 1269
microscale preparation of oxidation products of, 529
modulates tight junction assembly, 817
of sawflies and their relationship to other Hymenoptera, 441
reaction of with trimethylsulfonium hydroxide, 349
response to polychlorinated biphenyls and hydrogenated soybean oil, 1151
CHOLESTEROL ESTER HYDROLASE ASSAY
improvement of by cyclodextrin, 323
CHOLESTEROL ESTER METABOLISM
effect of cyclodextrin on, 323
stimulation of in isolated rat hepatocytes, 269
CHOLESTEROL GALLSTONES
dietary fat effect on, 949
effect of
castration and hormonal supplementation on, 945
methyltestosterone on, 879
prevention by dietary unsaturated fats in hamsters, 721
CHOLESTEROL METABOLISM
effectiveness of resistant starch and guar gum in, 1069
CHOLESTEROL PEROXIDATION
in opacified fish cornea, 1039
CHOLESTERYL ESTER
in Melanesians, 153
CHOLESTERYL ESTER HYDROLASE
inhibitory protein in rat testis, 1233
CHOLESTERYL ESTER TRANSFER
in insulin dependent diabetes mellitus subjects, 1
CHOLINE PHOSPHOLIPID
subclasses can be quantified directly by ^{31}P NMR in solution, 1189
CHROMARODS
analyzing separation and quantitation of mono-, di-, and triglycerides, 27
CHYLOMICRONS
effects of dietary triacylglycerol structure on triacylglycerols of, 341
CIS/TRANS FATTY ACID ISOMERIZATION
in *Pseudomonas putida*, 811
CLOFIBRATE
and fatty acids of lipids in mouse liver, 179
metabolism in human fibroblasts, 747
CLOUDBERRY
silver ion HPLC/APCI-MS of triacylglycerols of, 1311
COCONUT
dietary effects of in Melanesians, 153
COD LIVER OIL
intestinal lymph absorption of in rats, 405
COLD ADAPTABLE
polar lipids of *Listeria monocytogenes*, 635
COLOSTRUM
post-parturition changes in triacylglycerols of, 937
COPPER DEFICIENCY
apolipoprotein B mRNA editing in rats with, 433
CORN OIL
intestinal lymph absorption of in rats, 405
CORNEAL OPACIFICATION
oxysterols found in, 1039
COW
post-parturition changes in colostrum triacylglycerols of, 937
CUCURBITA MOSCHATA
sterols of seed oil of, 1205
CYANIDIN 3-*O*-(-D GLUCOSIDE
oxidation products of, 1259
CYCLIC-AMP
stimulation of microsomal cholesterol ester hydrolase by, 269
CYCLODEXTRIN DERIVATIVE
improvement of ACAT and CEH assays by, 323
CYTOCHROME P450
bisallylic hydroxylation and epoxidation of fatty acids by, 1003

D

DECOMPOSITION
of methyl linoleate hydroperoxides, 357
DEEP FAT FRYING
hydrolysis of vegetable oils used in, 1133
DEEP-SEA FISH
monoenes in the lipids of, 757
DELTA-8 DESATURASE
in vivo in mouse liver, 593
DELTA-12 DESATURASE SYSTEM
of *Lipomyces starkeyi*, 253
DETERGENT
^{31}P NMR of erythrocyte membranes using, 765

DEUTERIUM ISOTOPE
and Δ-8 desaturation in mouse liver, 593
DEVELOPING RAT CEREBRUM
specific activity of glycerolipid synthesis in, 437
DIACYLGLYCEROL ACYLTRANSFERASE REGULATION
inactivation and protein kinase, 277
DIACYLGLYCEROL KINASE
postnatal changes of in cortical gray matter of rat cerebrum, 437
DIARRHETIC SHELLFISH POISONING (DSP)
determination of free fatty acids in mussels contaminated by, 641
DIATOMOPHYCEAE
sterol composition of, 989
DIETARY FAT
effect on fatty acid profile of cardiolipin in heart and brain, 611
DIETARY SALMON OIL
and lipid transport, 871
DIETARY SUNFLOWER OIL
and lipid transport, 871
DIHYDRO-VITAMIN K_1
in plasma, 709
primary food sources of in the American diet, 715
DIMERIC APOLIPOPROTEIN A-II
structural and functional effects of, 1107
DIOLEOYL-PHOSPHATIDATE
in the assay of phosphatidate phosphohydrolase activity, 1097
DIPALMITOYL-PHOSPHATIDATE
in the assay of phosphatidate phosphohydrolase activity, 1097
DIPHENYL-1-PYRENYLPHOSPHINE
determination of hydroperoxides and structures by HPLC with, 1091
DIRADYLGLYCEROL
n-3 fatty acid effect on metabolism of *ex vivo*, 771
DOCOSADIENOIC ACID
in *Eranthis* seed oil, 201
DOCOSAHEXAENOIC ACID (DHA)
and arachidonic acid mobilization, 661
and peroxisomes in mice, 1157
chronic administration of and fatty acid composition in blood and organs, 169
comparison of results from human and animal studies, 243
concentration during embryonic rate brain development, 859
content of adipocytes during chick embryo development, 313
deficiency and artificial rearing in rats, 71
effect of (on)
high DHA–low EPA fish oil in infant formula, 617
the electroretinogram of the guinea pig, 65
visual attention of 2-month-old pre-term infants, 85
visual attention of 9-month-old pre-term infants, 91
essential in term infants?, 115
levels in rat brain and retina after ingesting linoleic acid, 1289
of the Palestinian freshwater sponge, 647
postnatal changes in cortical gray matter of rat cerebrum, 437
status and visual acuity in term infants, 99
supplementation and retinal fatty acids of piglets, 53

E

EDITING
of apolipoprotein B mRNA in copper-deficient rats, 433
EICOSANOIDS
effects of arachidonic acid and n-3 fatty acids on *in vitro* synthesis of, 729
in salmon gill and kidney, 1163
EICOSAPENTAENOIC ACID (EPA)
and arachidonic acid mobilization, 661
chronic administration of and fatty acid composition in blood and organs, 169
comparison of results from human and animal studies, 243
effects of temperature on in *Caenorhabditis elegans*, 1173
hypotriglyceridemic effect of, 579
levels and *in vitro* eicosanoid production, 729
of the Palestinian freshwater sponge, 647
oxidizability of in aqueous micelles, 337
trans isomers of in rat hepatocytes, 165
EICOSATETRAENOIC ACID
of the Palestinian freshwater sponge, 647
n-9 EICOSATRIENOIC ACID
effect on fatty acid composition in plasma, 829
EICOSATRIENOIC ACID
Δ-8 desaturation of, 593
ELECTRIC ORGAN
gangliosides in membranes of, 627
ELECTRORETINOGRAM (ERG)
effect of docosahexaenoic acid on in the guinea pig, 65
ENDOGENOUS SYNTHESIS
of arachidonic acid in infants, 79
ENZYME CHARACTERIZATION
of castor oleoyl-12-hydroxylase, 571
ENZYME-LINKED IMMUNOSORBENT ASSAY (ELISA)
analysis of stored lipoprotein(a) samples, 1197
ERANTHIS
unusual fatty acid pattern from seed oil from, 201
ERITADENINE
and phospholipid metabolism in rats, 399
ERYTHROCYTE MEMBRANE
effect of dietary fish oil on fatty acid turnover *in vivo*, 285
quantitative ^{31}P NMR analysis of the phospholipids of, 765
ESCHERICHIA COLI
expression of *Saccharomyces cerevisiae ERG6* gene in, 373
ETHANOL CONSUMPTION
and biosynthesis of phospholipids, 393
ETHER LIPIDS
in ascidian and sea urchin, 9
ETHYLENIC BONDS
ultrasound assisted oxidative cleavage of with potassium permanganate, 1299
EURYHALINE FISH
sphingomyelin metabolism is linked to salt transport in the gills of, 385
EVENING PRIMROSE
silver ion HPLC/APCI–MS of triacylglycerols of, 1311

F

FAT ABSORPTION
in fish oil and seal oil fed rats, 341
FATTY ACID COMPOSITION
and serum lipids of Melanesians, 153
effect of
chronic administration of EPA and DHA on, 169
dietary eritadenine on in rats, 399
high DHA–low EPA fish oil in infant formula on, 617
increased production of growth hormone on, 139
effect of dietary n-9 eicosatrienoic acid on, 829
essential
composition during embryonic rat brain development, 859
deficiency and arachidonic acid mobilization, 661
dietary supplementation effect on retinal fatty acids, 53
of adipose tissue analyzed *in vivo* using ^{13}C MRS, 145
of cow colostrum, 937
of human gliomas, 1283
of Myctophidae, 757
of the retina and diet fat, 61
FATTY ACID(S)
acyl CoA binding proteins in metabolism of, 895
analysis of glycerolipids done rapidly, 535
antifungal and lipid composition in fungi, 1077
content in developing bonefish, 513

Δ-5 in *Eranthis* seed oil, 201
Δ-8 desaturation in mouse liver, 593
dietary ratios in term infants, 107
esters regulate PPAR, 1115
hypotriglyceridemic effect of eicosapentaenoic acid, 579
in electric organ membranes, 627
in full-grown amphibian oocytes, 651
incorporation into algae, 1277
long-chain
dietary supplementation effect on retinal fatty acids, 53
methyl ester, analysis of, 535
monounsaturated
n-3 analysis of using mass spectrometry and nicotinates, 231
and plasma cholesterol, 849
n-3
and diradylglycerol metabolism *ex vivo*, 771
antiarrhythmic effects of on, 977
comparison of results from human and animal studies, 243
deficiency and artificial rearing in rats, 71
effect of on *in vitro* eicosanoid synthesis, 729
effect of on the electroretinogram of the guinea pig, 65
n-3/n-6 ratio in the rat diet, 737
of the Palestinian freshwater sponges, 647
oxidation (mitochondrial) increased by eicosapentaenoic acid, 579
polyunsaturated
clofibrate effect on in mouse liver, 179
dietary modulation of in mouse lung, 19
distribution in TAG effects distribution of TAG in chylomicrons, 341
effect on visual acuity in term infants, 99
in plasma lipids of obese children, 305
in salmon gill and kidney, 1163
long-chain and triacylglycerols in mammalian milk, 187
quantitative analysis of in simple lipid subclasses, 1303
response to polychlorinated biphenyls and hydrogenated soybean oil, 1151
saturated and tissue lipids in piglets, 497
trans unsaturated in bacteria, 129
unsaturated
and vitamin E levels, 963
cis/trans isomerization in *Pseudomonas putida*, 811
in *Sporothrix flocculosa*, 1077
long-chain from Axinellida, 193
uses of biotechnology in modifying, 557
very long-chain and clofibrate effect on in mouse liver, 179
FATTY ACYL COENZYME A
in metabolism of fatty acids, 895
FISH
dietary effects of in Melanesians, 153
FISH OIL
comparison of results from human and animal studies, 243
effect on phospholipid fatty acid turnover in erythrocytes *in vivo*, 285
vitamin E inhibits hyperlipidemia induced by, 839
FLUORESCENT OXIDATION PRODUCTS
from hexanal and L-lysine, 1125
FOOD BACTERIA
diversity of the polar lipids of *Listeria monocytogenes*, 635
FOOD COMPOSITION
to determine relationship between dietary intake of vitamin K_1 and vitamin K, 715
FREE FATTY ACID(S)
and insulin responsive glucose transporter in muscle, 1141
antiarrhythmic effects of, 977
determination of in mussel contaminated by diarrhetic shellfish poisoning, 641

G

GALLBLADDER BILE
improved ultracentrifugation method for separation of cholesterol carriers in, 657
GALLSTONES
dietary effects on bile and red cell membrane lipids in humans, 295
GAMMA-LINOLENIC ACID
hypocholesterolemic effect of in cholesterol fed rats, 415
GANGLIOSIDE(S)
GT1b phosphorylation of annexin I, 983
in membranes from *Torpedo* electric organ, 627
GARLIC
inhibitory effects on cholesterol biosynthesis of compounds derived from, 1269
GAS CHROMATOGRAPHY
analysis of cleavage of acetylenic and ethylenic bonds in unsaturated fatty esters, 1299
quantification of transmethylated lipoprotein and cellular lipid subclasses, 1303
GAS CHROMATOGRAPHY/FOURIER TRANSFORM INFARED (GC/FTIR)
analysis of unsaturated long-chain fatty acids in Axinellida, 193
GAS CHROMATOGRAPHY/MASS SPECTROMETRY (GC/MS)
analysis of unsaturated long-chain fatty acids in Axinellida, 193
characterization of liver oil ether lipids of deep sea shark, 521
identification of platelet-activating factor-like lipids, 1251
oxysterols found in opacified fish cornea *via*, 1039
reaction of lipid hydroxy groups with trimethylsulfonium hydroxide, 349
to determine triacylglycerol composition in colostrum, 937
GAS–LIQUID CHROMATOGRAPHY
analysis of unusual fatty acid pattern in *Eranthis* seed oil, 201
determination of position distribution of butyryl groups in triacylglycerols, 331
GASTRIC
phospholipids of rats, 1323
GASTRIC MUCOSA/MUCUS
phosphatidylcholine species of, 507
GASTRIC SURFACTANT
phosphatidylcholine species of, 507
GEL FILTRATION COLUMN CHROMATOGRAPHY
in separation of cholesterol carriers in bile, 657
GENETIC ENGINEERING
in modifying plant lipids, 557
GILL(S)
lipids and eicosanoids in salmon, 1163
salinity changes and sphingomyelin metabolism of, 385
GLIOMA
fatty acid composition of in humans, 1283
GLUCAGON
stimulation of microsomal cholesterol ester hydrolase by, 269
GLUCOCORTICOID NUCLEAR RECEPTOR (GR/NUC-1)
activated by fatty acid esters, 1115
GLYCEROLIPID(S)
rapid analysis of the fatty acids of, 535
GLYCEROLIPID SYNTHESIS
phosphatidate phosphatase involvement in, 785
GLYCOLIPIDS
quantitative HPLC analysis of using light-scattering detection, 217
GRAY MATTER
lysophosphoglyceride acylation and diacylglycerol phosphorylation in rat, 437
GROWTH TEMPERATURE
effect on
fatty acid composition of *Caenorhabditis elegans*, 1173
sterol composition of *Phaeodactylum tricornutum*, 989
GT1b
enhanced phosphorylation of annexin I, 983
GUAR GUM
effectiveness of in cholesterol metabolism, 1069
GUINEA PIG
docosahexaenoic acid and retinal function in, 65
phospholipid composition in post-natal starvation in, 489

H

^{1}H NUCLEAR MAGNETIC RESONANCE SPECTROSCOPY
determination of position distribution of butyryl groups in triacylglycerols, 331
HALOCYNTHIA RORETZI
ether phospholipids in, 9
HAMSTER
female
and prevention of cholesterol cholelithiasis, 721
hormonal effects on biliary lipid secretion on, 879
hyperlipidemia and lipid peroxidation, 839
phospholipid biosynthesis in the heart of, 1059
HEART
fatty acid composition of in weanling rats, 345
HEATED FATS
and liver enzyme activity in rats, 955
HEME PROTEINS
vitamin E protects tissues against oxidation of, 43
HEPATOCYTE
esterification and β-oxidation of stearic acid in, 159
inhibition of cholesterol biosynthesis, 1269
5,9,12-HEPTADECATRIENOIC ACID
in the cellular slime mold *Polysphondylium pallidum*, 445
HETEROGENEOUS CATALYSIS
quantifying the substrate concentration of during lipolysis, 261
HETEROSIGMA CARTERAE
the analysis of monounsaturated n-3 fatty acids using nicotinates in, 231
HEXANAL
fluorescent oxidation products from, 1125
HIGH DENSITY LIPOPROTEIN (HDL)
a rapid method for separation of for tocopherol and carotenoid analyses, 421
apolipoprotein A-II structure in, 1107
changes in during neutral lipid transfer in IDDM subjects, 1
fatty acid composition determined by thin-layer chromatography, 1303
HIGH-PERFORMANCE LIQUID CHROMATOGRAPHY (HPLC)
chiral phase, 207
determination of
hydroperoxides and structures with diphenyl-1-pyrenylphosphine, 1091
position distribution of butyryl groups in triacylglycerols, 331
interference of free fatty acids with the mouse bioassay, 641
of phosphatidylglycerol molecular species in thylakoids, 223
quantitative analysis of plant lipid classes using light-scattering detection, 217
HIGH-PERFORMANCE SIZE EXCLUSION CHROMATOGRAPHY
analysis of hydrolysis of used frying vegetable oils, 1133
HIRUDO MEDICINALIS
salivary lipid profiles of, 887
HPLC
See HIGH-PERFORMANCE LIQUID CHROMATOGRAPHY
HUMAN B CELLS
hpaf-R expression in, 1051
HUMAN ERYTHROCYTE(S)
quantitative ^{31}P NMR analysis of the phospholipids of, 765
HUMAN ERYTHROCYTE MEMBRANE
hydroperoxides in, 703
HUMAN FIBROBLASTS
clofibrate, retinoic acid, and phospholipid metabolism in, 747
HUMAN MILK
effect on arachidonic acid metabolism in infants, 79
HUMAN PLATELETS
lysophosphatidic acid increases phosphatidylinositol-4-phosphate formation in, 1265
HUMAN STUDIES
compared with results of animal studies of n-3 fatty acids and lipoproteins, 243
HYDROGEN PEROXIDE
protection against lipoxygenase inactivation by, 1245
HYDROGENATED OIL(S)
suppresses the effects of polychlorinated biphenyls, 1151
trans fatty acid composition in, 971
HYDROGENATION
of vegetable oils produces dihydro-vitamin K_1, 709
HYDROPEROXIDE(S)
determination of by HPLC with diphenyl-1-pyrenylphosphine, 1091
in human erythrocyte membranes, 703
13-HYDROPEROXY-9,11-OCTADECADIENOIC ACID
results of treatment with alkali from, 1023
12-HYDROPEROXYOCTADECANOIC ACID
resistance to alkali-promoted conversion, 1023
HYDROPHOBIC BARRIER
phosphatidylcholine species of in the rat, 507
HYDROXYCHOLESTEROL
microscale preparation of, 529
HYDROXY COMPOUNDS
formed during decomposition of methyl linoleate hydroperoxides, 357
HYDROXY FATTY ACIDS
reaction of with trimethylsulfonium hydroxide, 349
3-HYDROXY-3-METHYLGLUTARYL-CoA REDUCTASE (HMG-CoA REDUCTASE)
effect of chronic administration of EPA and DHA on, 169
inhibition of and carnitine status in the rabbit, 867
target of inhibition of cholesterol biosynthesis by garlic-derived compounds, 1269
13-HYDROXY-9,11-OCTADECADIENOIC ACID
resulting from reaction of hydroperoxides with alkali, 1023
HYMENOPTERA
relationship of neutral sterols of sawflies to, 441
HYPERINSULINEMIA
and polyunsaturated fatty acids in obese children, 305
HYPERTRIGLYCERIDEMIA
and polyunsaturated fatty acids in obese children, 305
HYPOXIA
effect on phospholipid biosynthesis in the hamster heart, 1059

I

INACTIVATION
protection of lipoxygenase, 1245
INFANT FORMULA
dietary DHA essential for term infants?, 115
effect on arachidonic acid metabolism in infants, 79
high DHA-low EPA fish oil in, 617
INSULIN DEPENDENT DIABETES MELLITUS
neutral lipid exchange in, 1
INSULIN RESPONSIVE GLUCOSE TRANSPORTER
and plasma free fatty acids in muscle, 1141
INTERESTERIFICATION
of monoacid TAG to determine positional distribution of butyryl groups, 331
INTESTINAL MICROFLORA
and effect on bile acid metabolism, 601
INTESTINE
effect of medium-chain triglycerides on Calbindin-D9k expression in, 547
IRON
supported lipid peroxidation in liposomes, 1029
ISOMERIZATION
cis-trans in unsaturated fatty acids, 129
ISOPROTERENOL
and antiarrhythmic effects of polyunsaturated fatty acids, 977

J

J774 MACROPHAGES
fatty acid composition determined by thin-layer chromatography, 1303

K

K80
intestinal lymph absorption of in rats, 405
KENNEDY PATHWAY
and phosphatidate phosphatase, 785
KETOCHOLESTEROL
microscale preparation of, 529
KETO COMPOUNDS
formed during decomposition of methyl linoleate hydroxyperoxides, 357
KIDNEY
fatty acid composition of in weanling rats, 345
lipids and eicosanoids in salmon, 1163
peroxisomes and DHA diet in mice, 1157
KOH-CATALYZED METHANOLYSIS
for rapid analysis of the fatty acids of glycerolipids, 535

L

LAGENIDIUM GIGANTEUM
sterol regulation of phospholipase A_2 from, 1179
LATAMOXEF
effect on intestinal microflora and bile acid metabolism in rats, 601
LECITHIN
dietary effects on bile and red cell membrane in humans, 295
LEPTOCEPHALI
lipid composition during metamorphosis of, 513
LIDOCAINE
effect on phospholipid biosynthesis in the hamster heart, 1059
LIGHT SPECTRAL QUALITY
effect on sterol composition of *Phaeodactylum tricornutum*, 989
LINOLEATE
higher oxidizability than eicosapentaenoate in aqueous micelles, 337
LINOLEATE HYDROPEROXIDES
decomposition of, 357
LINOLEIC ACID
and arachidonic acid metabolism in full-term infants, 79
and prevention of cholesterol cholelithiasis in hamsters, 721
effect on
DHA levels in rat brain and retina, 1289
visual attention of 2-month-old pre-term infants, 85
visual attention of 9-month-old pre-term infants, 91
ratio with linolenic acid in term infants, 107
LIPASE
from *Penicillium* sp., 379
LIPID(S)
composition of the saliva of leeches (*Hirudo medicinalis*), 887
estimation of PUFA content in using TLC, 427
in full-grown amphibian oocytes, 651
LIPID PEROXIDATION
effect of dietary fish oil on turnover *in vivo*, 285
in LDL promotes accumulation of 1-Acyl analogues, 1251
protection by multiple antioxidants against in rat liver, 47
supported by Fe(II) in liposomes, 1029
vitamin E inhibits in hamsters, 839
LIPOLYSIS
quantifying substrate concentration during heterogeneous catalysis during, 261
LIPOMYCES STARKEYI
Δ-12 desaturase of, 253
LIPOPROTEIN(a)
analysis of stored samples of, 1197
LIPOPROTEIN SEPARATION
a rapid method for tocopherol and carotenoid analyses, 421
LIPOSOME
antioxidant action of Fe(II) in, 1029
5-LIPOXYGENASE
ATP binding site of, 367
LIPOXYGENASE(S)
diversity in marine organisms, 1215
hydroperoxides formed by correlate with α-tocopherol levels, 703
products in lung altered by dietary fats, 19
specificity of two from rice, 803
LIQUID CHROMATOGRAPHY/MASS SPECTROMETRY (LC/MS)
characterization of liver oil ether lipids of deep sea shark, 521
with electrospray of polyunsaturate rich triacylglycerols, 207
LISTERIA MONOCYTOGENES
polar lipids in, 635
LIVER
peroxisomes and DHA diet in mice, 1157
phospholipid composition of in post-natal guinea pig starvation, 489
trans isomers of eicosapentaenoic acid in, 165
LIVER ENZYME
activity and heated fats, 955
LIVER HOMOGENATE
multiple antioxidants again lipid peroxidation in, 47
LIVER LIPIDS
effect of dietary sunflower oil on, 871
LONG-CHAIN ALCOHOLS
reaction of with trimethylsulfonium hydroxide, 349
LOVASTATIN
and carnitine status in the rabbit, 867
and tight junction barrier function, 817
LOW DENSITY LIPOPROTEINS (LDL)
fatty acid composition determined by thin-layer chromatography, 1303
rapid method for separation of for tocopherol and carotenoid analyses, 421
LUNG
fatty acid composition of in weanling rats, 345
lipoxygenase products altered by dietary fats, 19
LYMPH ABSORPTION
of butter, oils, and K80, in rats, 405
LYMPHOCYTE PROLIFERATION
altered by the ratio of n-6 to n-3 fatty acids in the rat diet, 737
LYSINE
fluorescent oxidation products from, 1125
LYSOPHOSPHOGLYCERIDE ACYLTRANSFERASE
postnatal changes of in cortical gray matter of rat cerebrum, 437
LYSOPHOSPHATIDIC ACID
increases phosphatidylinositol-4-phosphate formation in platelets, 1265

M

MACROPHAGES
incubation *ex vivo*, 771
MAGNESIUM-DEPENDENT
phosphatidate phosphohydrolase, assay of the activity of, 1097
MAMMARY GLAND(S)
GT1b-enhanced phosphorylation of annexin I in, 983
MARGARINE(S)
trans fatty acid composition in Danish, 971
MARINE OIL
effect on visual attention of 2 month old pre-term infants, 85
effect on visual attention of 9 month old pre-term infants, 91
MARINE ORGANISMS
biogenesis of marine oxylipins in, 1215
MARINE SPONGES
unsaturated long-chain fatty acids from, 193
MASS SPECTROMETRY
analysis of monounsaturated n-3 fatty acids using nicotinates, 231
optimization of analysis of triacylglycerols, 33
MATURE INFANTS
arachidonic acid supply and metabolism in, 79
dietary lenoleic/linolenic acid ratios in, 107
docosahexaenoic acid essential in?, 115
visual acuity and DHA in, 99

MELANESIANS
fatty acid composition and serum lipids in, 153
MEMBRANE FLUIDITY
cis/trans isomerization in *Pseudomonas putida*, 811
MEMBRANES
gangliosides in electric organ, 627
MENHADEN OIL
intestinal lymph absorption of in rats, 405
MESOCRICETUS AURATUS
dietary fat and biliary lipid secretion in, 949
effect of castration on cholesterol cholelithiasis in, 945
METABOLISM
of gill sphingomyelin in euryhaline fish, 385
METAMORPHOSIS
changes in lipid composition during in bonefish, 513
METHYLPALMITATE
activates peroxisome proliferator-activated receptors, 1115
METHYLTESTOSTERONE
effect on
biliary lipid secretion in the female hamster, 879
cholesterol cholelithiasis with castration, 945
prevention of cholesterol cholelithiasis in female hamsters treated with, 721
MICELLE(S)
improved ultracentrifugation method for the separation of, 657
oxidizability of eicosapentaenoate and linoleate in, 337
MICROSOMES
study of the Δ-12 desaturase system of *Lipomyces starkeyi,* 253
MILK LIPIDS
triacylglycerol profile of, 187
MITOCHONDRIAL FATTY ACID OXIDATION
increased by eicosapentaenoic acid in rats, 579
MOLECULAR SPECIES
composition of plasma phosphatidylcholine in post-natal guinea pigs, 489
eritadenine-induced alteration of phospholipid in rats, 399
hydroperoxides of, in human erythrocyte membranes, 703
in controlling structure of brain synaptic membranes, 1045
MONOENOIC FATTY ACID
of Myctophidae, 757
MONOENOIC FATTY ALCOHOL
of Myctophidae, 757
MONOGLYCERIDE
separation and quantitation of, 27
MONOMERIC APOLIPOPROTEIN A-II
structural and functional effects of, 1107
MONOOLEIN
separation and quantitation of mono-, di-, and triglycerides, 27
MYCTOPHIDAE
monoenes in the lipids of, 757
MYOCARDIUM
peroxisomes and DHA diet in mice, 1157

N

NATIVE ETHANOLAMINE PHOSPHOLIPID
subclasses can be quantified directly by ^{31}P NMR in solution, 1189
NATURAL KILLER CELL
activity altered by the ratio of n-6 to n-3 fatty acids in the rat diet, 737
NEMATODE
effect of temperature on fatty acid composition of, 1173
NEURAL
cardiolipin fatty acids and effect of diet on, 611
NEUTRAL CHOLESTEROL ESTERASE
activation of in isolated rat hepatocytes, 269
NEUTRAL LIPIDS
and embryonic rat brain development, 859
NICOTINATE
in the analysis of monounsaturated n-3 fatty acids by mass spectrometry, 231
NITROGEN OXIDE
interaction with tocopherols, 671
NONINVASIVE
analysis of adipose tissue composition *in vivo* using ^{13}MRS, 145
NONMALIGNANT BRAIN TISSUE
vs. glioma and fatty acid composition, 1283
^{13}C NUCLEAR MAGNETIC RESONANCE
analysis of
cleavage of acetylenic and ethylenic bonds in unsaturated fatty esters, 1299
sterols of *Cucurbita moschata* seed oil, 1205
triacylglycerol species in *Santalum album*, 1083
^{1}H NUCLEAR MAGNETIC RESONANCE
analysis of sterols of *Cucurbita moschata* seed oil, 1205
^{31}P NUCLEAR MAGNETIC RESONANCE
quantification of subclasses of native ethanolamine and choline phospholipids, 1189
NUCLEAR RECEPTOR
fatty acid methyl esters as regulators of, 1115

O

OBESE CHILDREN
polyunsaturated fatty acids in plasma lipids in, 305
TRANS-OCTADECENOIC ACID
in Danish margarines and shortenings, 971
OENOTHERA BIENNIS LINN OIL
hypocholesterolemic effects of, 415
OILSEED(S)
phosphatidate phosphatase involvement in developing, 785
uses of biotechnology in modifying, 557
OLEIC ACID
activates GR/NUC-1 receptor, 1115
and prevention of cholesterol cholelithiasis in hamsters, 721
OLEOCHEMICALS
uses of biotechnology in modifying plant lipids, 557
OLEOYL-12-HYDROXYLASE
characterization of in castor microsomes, 571
ORGANOSULFUR COMPOUNDS
in inhibition of cholesterol biosynthesis, 1269
OXIDATION
vitamin E protects tissues against oxidation of heme protein, 43
OXIDATIVE PRODUCTS
of cyanidin 3-*O*-(-κ-glucoside, 1259
OXIDIZABILITY
of eicosapentaenoate and linoleate in aqueous micelles, 337
13-OXO-11,12-EPOXY-9-OCTADECENOIC ACID
resulting from reaction of hydroperoxides with alkali, 1023
OXYGENATION
of polyunsaturated fatty acids by cytochrome P450, 1003
OXYLIPIN
biogenesis of marine, 1215
OXYSTEROL(S)
chemistry, biochemistry, and biological activities of, 453
microscale preparation of, 529

P

^{31}P NUCLEAR MAGNETIC RESONANCE (NMR)
quantitative analysis of erythrocyte membranes, 765
PALESTINIAN FRESHWATER SPONGES
fatty acids of, 647
PALM OLEIN
hydrolysis of by porcine pancreatic lipase, 1133

PENICILLIUM SP.
triglyceride lipase from, 379
PEROXISOMAL PROLIFERATORS
effect on phospholipid metabolism in human fibroblasts, 747
PEROXISOME PROLIFERATOR-ACTIVATED RECEPTOR (PPAR)
fatty acid methyl esters as endogenous regulators of, 1115
PEROXISOME(S)
effect of
chronic administration of EPA and DHA on, 169
clofibrate on in mouse liver, 179
PHAEODACTYLUM TRICORNUTUM
sterol composition of, 989
PHENOTYPE
analysis of stored lipoprotein(a) samples, 1197
[^{33}P] PHOSPHATIDATE
in the assay of phosphatidate phosphohydrolase activity, 1097
PHOSPHATIDATE PHOSPHATASE
effect of dietary sunflower oil on, 871
measuring activity of, 1097
of mammals, yeast, and higher plants, 785
PHOSPHATIDYLCHOLINE
biosynthesis in the hamster heart, 1059
composition of in post-natal starvation of guinea pigs, 489
effect of eritadenine on composition of, 399
in the mucosa and stomach wall of rats, 1323
species of the gastric barrier in the rat, 507
synthesis of phosphatidylserine from, 541
PHOSPHATIDYLCHOLINE MOLECULAR SPECIES
role in suppressing cholesterol cholelithiasis, 721
PHOSPHATIDYLETHANOLAMINE
composition of in post-natal starvation of guinea pigs, 489
effect of eritadenine on composition of, 399
in the mucosa and stomach wall of rats, 1323
PHOSPHATIDYLGLYCEROL MOLECULAR SPECIES
in thylakoids, 223
PHOSPHATIDYLINOSITOL-4-PHOSPHATE
formation in platelets increased by lysophosphatidic acid, 1265
PHOSPHATIDYLSERINE
phosphorylation of annexin I in presence of, 983
synthesis of from phosphatidylcholine, 541
PHOSPHITE TRIESTER
in phosphatidylserine synthesis, 541
PHOSPHOLIPASE
in salmon gill and kidney, 1163
PHOSPHOLIPASE A_2
and arachidonic acid mobilization, 661
sterol and steryl ester regulation of in *Lagenidium giganteum*, 1179
PHOSPHOLIPID(S)
and embryonic rat brain development, 859
biosynthesis
and ethanol consumption, 393
in the hamster heart, 1059
composition in cardiolipin effected by dietary fat, 611
diet fat and the fatty acid composition of the retina in rats, 61
dietary modulation of in mouse lung, 19
docosahexaenoic and arachidonic acid supplementation effect on, 53
hydroperoxides of, in human erythrocyte membranes, 703
in ascidian and sea urchin, 9
in controlling structure of brain synaptic membranes, 1045
in salmon gill and kidney, 1163
membrane
effects of increased production of growth hormone on, 139
of mucosa and stomach wall of rats, 1323
quantitative ^{31}P NMR analysis of in erythrocyte membranes, 765
unsaturated long-chain fatty acids from in Axinellida, 193
PHOSPHOLIPID FATTY ACID(S)
antiarrhythmic effects of, 977
PHOSPHOLIPID FATTY ACID RENEWAL
effect of dietary fish oil on *in vivo*, 285
PHOSPHOLIPID METABOLISM
effect of clofibrate, retinoic acid on in human fibroblasts, 747
PHOSPHORAMIDITE METHODOLOGY
in phosphatidylserine synthesis, 541
PHOSPHORYLATION
of annexin I in mammary gland, 983
PHOTOSYNTHETIC MEMBRANES
of phosphatidylglycerol molecular species analyzed by HPLC, 223
PHYLLOQUINONE
and plasma concentrations of dihydro-vitamin K_1, 709
relationship between vitamin K and dietary intake of, 715
PIGLET(S)
dietary triacylglycerol structure and tissue lipids in, 497
effect of
dietary supplementation on retinal fatty acids in, 53
medium-chain triglycerides on Calbindin-D9k expression in, 547
PLANT MEMBRANES
quantitative HPLC analysis of using light-scattering detection, 217
PLANT OIL(S)
modification of using biotechnology, 557
PLASMA
phospholipid composition of in post-natal guinea pig starvation, 489
PLASMA CHOLESTEROL
and monounsaturated fatty acids, 849
PLASMA LIPIDS
effect of
dietary n-9 eicosatrienoic acid on, 829
dietary sunflower oil on, 871
PLASMA MEMBRANE
lipids in full-grown amphibian oocytes, 651
PLATELET-ACTIVATING FACTOR
like lipids, 1251
PLATELET-ACTIVATING FACTOR ACETYLHYDROLASE
activity not in LDL derived from egg yolk, 1251
PLATELET-ACTIVATING FACTOR RECEPTOR
expression in human B cells, 1051
POLYCHLORINATED BIPHENYLS (PCBs)
highly hydrogenated oil suppresses the effects of, 1151
POLYSPHONDYLIUM PALLIDUM
identification of a novel all-*cis*-5,9,12-heptadecatrienoic acid in, 445
POLYUNSATURATED FATTY ACIDS
biosynthesis in algae, 1277
dietary, in weanling rats, 345
effect of temperature on of *Caenorhabditis elegans*, 1173
estimation of in lipids of aquatic organisms, 427
in salmon gill and kidney, 1163
PORCINE PANCREATIC LIPASE
hydrolysis of oxidized palm olein and sunflower oil by, 1133
PORPHYRIDIUM CRUENTUM
biosynthesis of eicosapentaenoic acid in, 1277
POST-COLUMN DETECTION
hydroperoxide determination with diphenyl-1-pyrenylphosphine using, 1091
POST-NATAL FOOD RESTRICTION
effect on phospholipid composition in guinea pigs, 489
POST-PARTURITION
changes in triacylglycerols of cow colostrum, 937
PRETERM INFANTS
n-3 status and visual attention of until 2 months, 85
n-3 status and visual attention of until 9 months, 91
PROSTACYCLIN
effect of arachidonic acid and n-3 fatty acid on production of, 729
PROTECTION
of lipoxygenase against inactivation, 1245
PROTEIN KINASE C
and effect of lysophosphatidic acid on phosphatidylinositol-4-phosphate formation, 1265
PROTEIN TYROSINE KINASE
and diacylglycerol acyltransferase inactivation, 277

PSEUDOMONAS PUTIDA
cis/trans isomerization of, 811
PURIFICATION
of *Penicillium* sp. lipase, 379

R

RADIOCHOLESTEROL
microscale preparation of, 529
RADIOLABELED EXOGENOUS PRECURSORS
phospholipid biosynthesis in hepatocytes from alcoholic rats using, 393
RANUNCULACEAE
fatty acid patterns in, 201
RAT LIVER
assay of phosphatidate phosphohydrolase activity in, 1097
RAT LIVER MICROSOMES
stimulation of cholesterol ester hydrolase in, 269
RAT(S)
cholesteryl ester hydrolase inhibitory protein in, 1233
copper-deficient, apolipoprotein B mRNA editing in, 433
diet fat and the fatty acid composition of the retina in, 61
dietary
n-9 eicosatrienoic acid in, 829
heated fats and liver enzyme activity in, 955
eritadenine and phospholipid metabolism in, 399
ethanol consumption and phospholipid biosynthesis in, 393
highly hydrogenated oil suppresses the effects of PCBs in, 1151
intestinal lymph absorption of butter, oils, and K80 in, 405
trans isomers of eicosapentaenoic acid in, 165
RECEPTOR EXPRESSION
in human B cells, 1051
REGIOSPECIFICITY
of a lipoxygenase isoenzyme from rice, 803
RESISTANT STARCH
effectiveness of in cholesterol metabolism, 1069
RETINA
effect of dietary supplementation on fatty acids in, 53
polyunsaturated fatty acid accretion in rat, 1289
RETINOIC ACID
metabolism in human fibroblasts, 747
RICE
specificity of two lipoxygenases from, 803
RICINOLEIC ACID
characterization of castor oleoyl-12-hydroxylase, 571
ROD OUTER SEGMENT
of the retina and diet fat in rats, 61

S

SACCHAROMYCES CEREVISIAE ERG6 GENE
expression of in *Escherichia coli*, 373
SAFFLOWER OIL
and biliary lipid secretion in the hamster, 949
SALINITY
changes and gill sphingomyelin metabolism, 385
SALIVARY LIPID PROFILE
of *Hirudo medicinalis*, 887
SALMON
fatty acid composition, eicosanoid production, and phospholipase A activity in, 1163
SANTALBIC ACID
ultrasound-assisted synthesis of, 1083
SANTALUM ALBUM
study of triacylglycerol species in, 1083
SAWFLIES
neutral sterols of, 441
SEA URCHIN
ether phospholipids in, 9
SEED OIL
fatty acid patterns from *Eranthis*, 201
SELECTIVITY
substrate in *Penicillium* sp. lipase, 379
SELENIUM
against lipid peroxidation in rat liver, 47
SERUM LIPIDS
and fatty acid composition in Melanesians, 153
SERUM LIPOPROTEINS
comparison of results from human and animal studies, 243
SHORT-CHAIN ACYL
distribution of in triacylglycerols, 331
SHORTENING(S)
trans fatty acid composition in Danish, 971
SIGNAL TRANSDUCTION
phosphatidate phosphatase involvement in, 785
SILVER ION HIGH-PERFORMANCE LIQUID CHROMATOGRAPHY
of seed oil triacylglycerols, 1311
SINGLET OXYGEN
interaction with the tocopherols, 671
SKELETAL MUSCLE
plasma free fatty acids and insulin responsive glucose transporter in, 1141
SOYBEAN OIL
and dihydro-vitamin K_1 plasma concentration, 709
quantitative analysis of triglycerides in, 919
SPHINGOMYELIN
metabolism and salt transport in the gills of euryhaline fish, 385
SPOROTHRIX FLOCCULOSA
influence of fatty acids from on cellular lipid composition, 1077
STEARIC ACID
esterification and β-oxidation of, 159
STEREOSPECIFIC ANALYSIS
of triacylglycerols, 207
STEROL(S)
composition of *Phaeodactylum tricornutum*, 989
of *Cucurbita moschata* seed oil, 1205
of sawflies and their relationship to other Hymenoptera, 441
oxidation, progress in, 453
regulation of phospholipase A_2 from the mosquito parasite *Lagenidium giganteum*, 1179
specificity of *Saccharomyces cerevisiae ERG6* gene in *Escherichia coli*, 373
STERYL ESTER REGULATION
of phospholipase A_2 from *Lagenidium giganteum*, 1179
STORAGE
effect of on lipoprotein(a) samples, 1197
STRONGYLOCENTROTUS INTERMEDIUS
ether phospholipids in, 9
SUCROSE DENSITY GRADIENT
in improved separation of cholesterol carriers in bile, 657
SULFOQUINOVOSYL MONOACYLGLYCEROL
in the analysis of monounsaturated n-3 fatty acids by mass spectrometry, 231
SUNFLOWER OIL
hydrolysis of by porcine pancreatic lipase, 1133
SWINE
monounsaturated fatty acid and plasma cholesterol in, 849
SYNAPTIC MEMBRANES
physicochemical properties of in brain, 1045
SYNTHESIS
of phosphatidylserine from phosphatidylcholine, 541

T

TEMPERATURE
effect on control of structural order of brain synaptic membranes, 1045

THERMOOXIDATIVE AND HYDROLYTIC ALTERATION
of used vegetable oils, 1133
THIN-LAYER CHROMATOGRAPHY
estimation of PUFA content of lipids in aquatic organisms using, 427
quantification of transmethylated lipoprotein and cellular lipid subclasses, 1303
THIN-LAYER CHROMATOGRAPHY/FLAME-IONIZATION DETECTION (TLC/FID)
in separation and quantitation of mono-, di-, and triglycerides, 27
THROMBOXANE
effect of arachidonic acid and n-3 fatty acid on production of, 729
TIGHT JUNCTION
modulation by cholesterol, 817
TISSUES
vitamin E protects against oxidation of heme proteins in, 43
TOCOPHEROLS
chemistry and antioxidant properties of, 671
TOCOTRIENOLS
chemistry and antioxidant properties of, 671
TOMATO LIPOXYGENASE
protection against inactivation of, 1269
TORPEDO
gangliosides in membranes of, 627
TOTAL DIET STUDY
to determine primary food sources of dihydro-vitamin K_1, 715
TRANSEPITHELIAL ELECTRICAL RESISTANCE
cholesterol effect on, 817
TRANSESTERIFICATION
for rapid analysis of the fatty acids of glycerolipids, 535
TRANS ISOMERS
cis/trans isomerization in *Pseudomonas putida*, 811
of eicosapentaenoic acid, 165
TRIACYLGLYCEROL(S) (TAGs)
and phosphatidate phosphatase, 785
and tissue lipids in piglets, 497
comparison of results from human and animal studies, 243
effect of clofibrate on in mouse liver, 179
effect of dietary sunflower oil on, 871
lipase from *Penicillium* sp., 379
medium-chain alter piglet intestinal Calbindin-D9k expression, 547
optimization of mass spectrometry analysis of, 33
positional distribution of butyryl groups in, 331
post-parturition changes of in cow colostrum, 937
profile of milk lipids, 187
quantitative analysis of using APCI–MS, 919
rich in polyunsaturated fatty acids, 207
silver ion HPLC/APCI–MS of, 1311
species in *Santalum album* seed oil, 1083
stearic acid in synthesis of, 159
structure of dietary fats and chylomicrons, 341
synthesis, effect of protein kinase on, 277
uses of biotechnology in modifying, 557
TRIMETHYLSULFONIUM HYDROXIDE
reaction of lipid hydroxy groups with, 349
TRITON X-100
in the assay of phosphatidate phosphohydrolase activity in, 1097
TROLOX
effect on decomposition of methyl linoleate hydroperoxides, 357

U

UNSATURATED FATS
and cholesterol cholelithiasis, 721
UNSATURATED FATTY ESTERS
effect of ultrasound on the oxidation of, 1299

V

VASOPRESSIN
stimulation of microsomal cholesterol ester hydrolase by, 269
VEGAN
in vivo study of adipose tissue composition of, 145
VERY LOW DENSITY LIPOPROTEINS
fatty acid composition determined by thin-layer chromatography, 1303
VESICLES
improved ultracentrifugation method for the separation of, 657
VISUAL ATTENTION
effect of docosahexaenoic acid on in 2-month-old pre-term infants, 85
effect of docosahexaenoic acid on in 9-month-old pre-term infants, 91
VITAMIN E
against lipid peroxidation in rat liver, 47
analyses; a rapid method for separation for, 421
and fatty acid unsaturation, 963
effect of on phospholipid fatty acid renewal *in vivo*, 285
inhibits fish oil-induced hyperlipidemia and lipid peroxidation in hamsters, 839
protects tissues against oxidation of heme protein, 43
VITAMIN K
relationship between dietary intake of vitamin K_1 and, 715

W

WEANLING RATS
polyunsaturated fatty acids in, 345

Z

ZARAGOZIC ACID
and tight junction barrier function, 817
